## JUNIOR CLASS BEATS SENIORS

Undergraduates Win Championship in the High School Interclass Football Series.

Salt Lake, Nov. 18.—For the first time in the history of the school, the interclass football championship has been won by the undergraduate team. The senior class team failed to live up to the precedent set by the past senior teams and lost in a hard-fought contest to the junior team by a score of 11 to 5. The game was a spirited one from the start and the players fought hard to the end. Rivalry had been great between the two teams.

The side lines were crowded and most of the spectators were cheering for the junior team. The game started rather late and the last quarter was played in the dusk, which made long passes unsafe and punting difficult.

On the first down of the second quarter, Kilpatrick caught a pass for a forward pass and ran to the ten-yard line before being downed. He covered sixty yards but his team lost the ball on a fumble. On two exchanges of punts the juniors started an advance from the center of the field and Hawley, on two forward passes, went to the end for the first touchdown, but Atkins failed to kick goal.

The seniors advanced to the twenty-five yard line when an inside kick was made, but Harris, the junior quarterback, thinking the kick illegal, let the ball go by. Caffey recovered it and scored for the seniors. The remainder of the game was exchanged punts, and Atwood did well getting every one out of line.

The seniors played hard, but the juniors were ready for every play and with half a minute to play after a snafu of several minutes the seniors quit. The playing of Kilpatrick for the juniors was the feature of the game. He made several forward passes and recovered fumbles. Atwood loomed up at punting, and Houltz, Kimball, Eichner and Johnson were in every line play. Hawley made four forward passes for long gains. Spencer, at tackle for the seniors, played a great defensive, while McCarthy, at quarter, was in every play. The junior team will likely play Park City on Thanksgiving day.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulax. They operate easily, tone the stomach, cure constipation.

## IN PURSUIT OF BIG CONVENTION

Zion After Biennial Gathering of National Federation of Women's Clubs.

At a meeting Thursday of a committee of the Utah Federation of Women's Clubs, and the convention committee of the Commercial club of Salt Lake, arrangements were made for a strong fight on the part of two organizations for the 1912 biennial convention of the National Federation of Women's Clubs. Resolutions were drafted at the meeting requesting the board of governors of the club to pledge its moral and financial support in securing the convention and helping to entertain the women in case the convention is secured.

At the meeting Mrs. McMahon, representing the women, said that the movement to secure the 1912 convention for Salt Lake was started last June, at the time of the tenth biennial at Cincinnati. At that time the Salt Lake women sent to the Commercial club for literature, and a number of pamphlets and booklets were forwarded. These were distributed effectively, and the result was that practically every delegation from Main to Utah accepted the slogan, "Salt Lake for 1912."

Zion's Only Rival. San Francisco, Mrs. McMahon said, was the only rival of Salt Lake, and this movement was supported as a city measure only inasmuch as the convention was held at Los Angeles eight years ago. In Utah, however, the movement is state-wide, some twenty-eight clubs of the state, with

## RHEUMATISM PAINFUL & DANGEROUS

Rheumatism is due to a diseased condition of the blood cells and corpuscles, brought about by an excess of acid in the circulation. It is not only a very painful disease, but is extremely dangerous trouble. The briny, acid state of the blood gradually forms a coating over the muscles, and by depositing a cement-like substance in the joints frequently terminates fatally, or leaves its victim a hopeless cripple. It is natural to "doctor" the spot that hurts, and it is quite right to use liniments, hot applications, etc., to get temporary relief from a painful joint or swollen tendon; but Rheumatism is not a skin disease, and such things, when depended on alone make one careless, and the disease gets a firmer hold on the blood. S. S. S. cures the disease because it is the greatest of all blood purifiers. It goes into the circulation, and removes every particle of the irritating uric acid, builds up the blood, makes it rich and oily, and in this way prepares it for the proper nourishment of all joints, muscles, nerves and bones. If you have Rheumatism, get the uric acid out of the blood by taking S. S. S., a purely vegetable medicine, and enjoy freedom from its misery. Book on Rheumatism and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

## GUARANTEED LIQUOR CURE

Drunkness is a progressive disease, the moderate drinker is not satisfied with two or three drinks a day, the craving for more and more becomes irresistible as the disease advances; the result is Chronic Alcoholism.

The treatment used successfully by thousands of right in their own homes is Orinone. It is sold under a positive guarantee to effect a cure or your money will be refunded.

Orinone No. 1 is the secret remedy; Orinone No. 2 is for those willing to take the treatment. Either form costs \$1. Write for free booklet "How to Cure Drunkennes." The Orinone Co., 656 Orinone Building, Washington, D. C. Sold by leading druggists, and in this city by BADCON'S PHARMACY.

## HIGH COAL PRICES UNDER DISCUSSION

George F. Carpenter Compares Cost in Provo and in Colorado Points.

Provo, Nov. 17.—At a meeting of the Provo "Progressive" league this evening, George F. Carpenter deplored the lack of a public utilities commission in this state, claiming that the present high price of coal was largely due to the absence of such a commission.

Citing an illustration he stated that Utah coal was being sold in Grand Junction for \$1.40 per ton, while the same coal, with practically the

same length of haul, was being sold at Provo at \$5 per ton. In support of his claims he presented the following figures, which he declared were liberal as compared with those in effect in other states. As a fair cost of the production of coal, to mine and place on cars, \$1.50; freight \$1.50; retailer's profit and cost of delivery, \$1.50, making the total cost \$4.50 per ton, which at the same time allows a larger margin of profit than in many of the other states.

He said he believed a public utilities commission could be secured through the next legislature, as fourteen representatives were pledged to support such a measure, and many others were in favor of it. He and Walter Adams were authorized by the league to prepare a petition and secure names, to present to the next legislature, urging the adoption of such a measure.

F. A. Hullish presided at the meeting and stated that the object of the league was to secure political reform, as enjoyed by other states, such as the initiative and referendum, the recall and the direct primary election law.

George A. Startun spoke at some length on the history of the effects of these measures, and told how the public utilities commission plank had been defeated at the Republican state convention.

In closing the meeting, President Hullish read a letter from Mayor Wm. Glanman, of Ogden, asking for information regarding the progressive movement in Provo, as it was probable that something similar was to be launched in Ogden.

Development work since the camp was discovered about two years ago, which has amounted usually to surface scratching has been scattered over some eight or ten square miles, and at only one of the two points has any systematic and substantial mining been done. At these places, as well as at many where the work has been hitherto, the "leads" have responded liberally and are suggestive of hidden treasures yet to be uncovered.

Find High Grade. The properties are owned in the

main by poor men who must develop after a choleric fashion, crushing the higher grades of ore and amalgamating by hand. A noticeable and pleasing instance of this at the present time is that of leasers on the Hardacre vein, grinding 50 pounds per day with a hand muller and recovering \$1 per pound.

The recovery of the values contained in the Gold Circle ores is extremely simple, being free and amalgamating readily, there being no base of interfering elements. Slacking the ore by a short period of weathering, then mulling over and when it is more popular with those not capable of more pretentious ways of reduction.

Commendable perseverance with some of the less fortunate who are not able to make their claims yield a "grab stake" as they go on, is the fact that almost without exception properties on the "ore zone" are protected with the required amount of work each year, all possessing that optimism which foretells a matter of only a short time until the camp will come into its own and when it mortals and true worth will be recognized in the mining world.

### STENCILING IS EASILY LEARNED.

Most of the magazines are now telling of the new decorative art called "Stenciling"— Designs from cut stencils are painted on fabrics for curtains, cushions, etc. Once you learn you can make your own designs—We'll teach you without charge and sell the first materials to you.

## A Boys' Suit Worth to \$5.00 .. \$1.95

We have decided to make short work of the boys' straight knee pant suits. The pants of these suits are not made Knickerbocker style, and for that reason we are willing to sell them quickly at less than half of the real price.

Many boys still prefer these straight pants—and even if the boys insist on the Knickerbocker style (blouse knee effect) we will sell you an extra pair of pants to go with the coat and still save you three to four dollars.

These are for boys of 12 to 15 years—they are priced regularly up to \$6. Lots of them are \$5. Some are \$4.50, and so on. You may have your choice of the entire lot for \$1.95.

## Men's Suits \$25 Values .. \$19.75

You will be surprised to know the number of men who are saving \$5.25 each day and getting suits which are just as good style—a little better, we think—and just as good value as though they paid the \$25 to \$30 price at any other store in Ogden.

When you think of Hart, Schaffner & Marx suits you have a feeling that there is no doubt about the value or the style. We would like to meet every man in Ogden who is interested in a Fall suit. We'll not complain if you don't buy—we'll save you \$5.25 or more if you do. Is it worthy of your consideration?

## THOUSANDS OF REMNANTS AND BASEMENT BARGAINS

Look over these remnants in the Economy Basement before buying piece goods—there is a possible saving. Outing flannels, Printed Flannelettes, Percalae, Gingham, Cotton Flannel, Toweling, Curtain Ends, Dress Goods Draperies.

Fringed Bed Spreads, white and colored, \$1.35 98c  
Tokonabe Tea Pots—in which the Japs make their famous tea 25c  
King Glass Wash Board, Regular 50 cent 32c  
Foot Stools—Hassets, covered, up to \$1.
